

HAND-TRUCKS & TROLLEYS

Heavy-duty Hand-trucks

Up to **250kg** capacity

- Welded steel construction with zinc-plated finish for maximum corrosion resistance
- A range of wheel options – pneumatic or solid rubber

We have a Hand truck for every purpose. Constructed in high-quality welded steel with attractive zinc-plated finish, they're available with a range of wheel options – pneumatic or solid rubber. Extremely popular in industries where high usage and heavy loads are common.

GN50 Heavy Duty
A stronger gooseneck with steel rimmed, pneumatic wheels as standard, thicker, stronger axle, and a heavier, reinforced lip.

GN50LW Heavy Duty Larger Wheels
410 x 350 x 6 steel rimmed, pneumatic wheels are standard.

GN 'Gooseneck' Series

Very popular for general purpose medium to heavy-duty use. High strength, low weight.

MODEL	CAPACITY	HEIGHT	LIP SIZE
GN40	150kg	1260mm	195mm x 350mm
GN40S	150kg	1100mm	195mm x 350mm
GN50	200kg	1260mm	210mm x 350mm
GN50LW	200kg	1260mm	210mm x 350mm

GN40
Plastic centred 300/4 pneumatic wheels are standard. Also available the shorter GN40S model.

CC20 High Back

CC20 High Back

Popular for transporting taller items and crates such as soft-drinks, milk and wine cases.

MODEL	CAPACITY	HEIGHT	LIP SIZE
CC20	250kg	1500mm	150mm x 400mm
CC20EL	250kg	1500mm	250mm x 400mm

Standard wheels: Pneumatic tyres 410/350 x4 on steel centres (rims).

SM48
Standard lip, solid rubber tyres.

SM48ELB
Extended lip, pneumatic tyres.

CB70A
Curved back, standard lip, pneumatic tyres.

SM48 Series

The toughest Hand-trucks available. Four model variants. Steel rims, pneumatic or solid rubber wheels
Height: 1200mm. Load capacity 250kg

MODEL	WHEEL TYPE:	LIP SIZE
SM48	250mm solid rubber	150mm x 400mm
SM48B	300/4 pneumatic	150mm x 400mm
SM48EL	250mm solid rubber	250mm x 400mm
SM48ELB	300/4 pneumatic	250mm x 400mm

Load capacity: 250kg. Height: 1200mm

CB70 Series

Robust Hand-trucks with a curved back. Four model variants. Steel rims, pneumatic or solid rubber wheels
Height: 1200mm. Load capacity 250kg

MODEL	WHEEL TYPE:	LIP SIZE
CB70	250mm solid rubber	150mm x 400mm
CB70A	300/4 pneumatic	150mm x 400mm
CB70EL	250mm solid rubber	250mm x 400mm
CB70ELA	300/4 pneumatic	250mm x 400mm

Load capacity: 250kg. Height: 1200mm

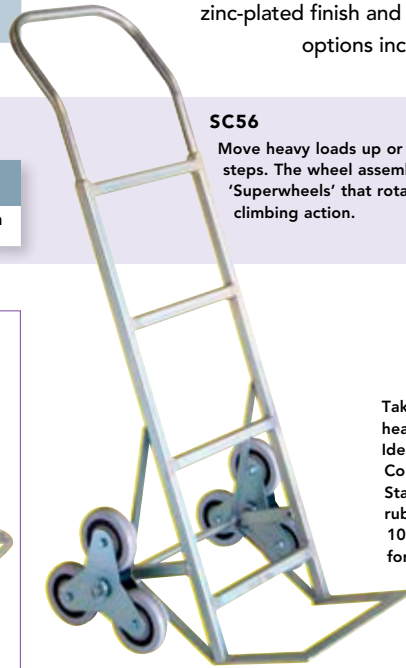

Up to **200kg** capacity

- Welded steel construction with zinc-plated finish for maximum corrosion resistance
- A range of wheel options – pneumatic or solid rubber

Special Purpose Hand-trucks are constructed from steel and are very strong and robust. They come in attractive zinc-plated finish and are available with a range of wheel options including pneumatic and solid rubber.

Stair Climber

MODEL	CAPACITY	HEIGHT	LIP SIZE
SC56	150kg	1150mm	200mm x 360mm

SC56

Move heavy loads up or down stairs, over curbs and door-steps. The wheel assembly includes three 125mm PVC tyred 'Superwheels' that rotate on the central axle to provide the climbing action.

Stabilizer Stands

GBS20 Gas Bottle Stabilizer Stands

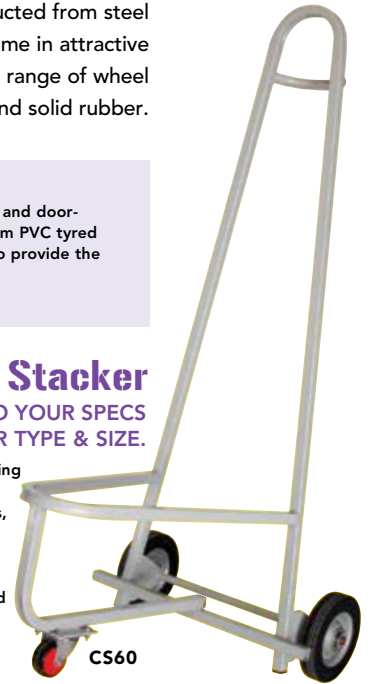

Single & Double cylinder models. Prevents bottles from toppling over.

- Fully zinc-plated
- Chains secure cylinders

Chair Stacker

MADE TO YOUR SPECS
TO SUIT CHAIR TYPE & SIZE.

Take the effort out of moving heavy stacks of chairs. Ideal for Auditoriums, Halls, Community Centres etc. Standard wheels are solid rubber tyres on steel rims. 100mm swivel castor fitted for stability & mobility.

CS60

Oxy Acetylene / Gas Bottle Hand-trucks

Designed to provide the safe and efficient movement and storage of gas bottles/cylinders. They're constructed from steel and are strong and very robust. Suitable for both small and large industrial gas bottles

LPG Gas Bottles

LPGB LPG Bottle – Brakes

For Delivery/transport of LPG cylinders. Wheels are plastic centred pneumatic.

GBL58 Large Gas Bottle

For G-sized acetylene and all LPG cylinders. Standard wheels are steel centred, 400/480 x 8 pneumatic.

HDG52 Double Gas Bottle Oxy/Acetylene

For G-sized cylinders. Standard wheels are steel centred, 400/480 x 8 pneumatic.

GBS57 Single Gas Bottle

For tall G & F-sized gas bottles. Standard steel centred 300/4 pneumatic wheels. Gooseneck handle for better control.

BOTTLE STORAGE SAFETY

LPG	LPG BOTTLE
HEIGHT:	1120mm
CAPACITY:	200kg

HEIGHT:	1500mm
CAPACITY:	200kg
LIP SIZE:	210mm x 350mm

HAND-TRUCKS & TROLLEYS

Special Purpose Hand-trucks

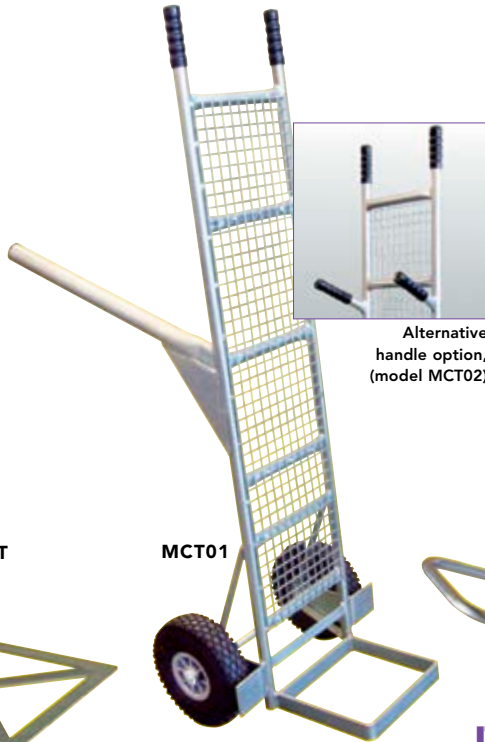

Up to **200kg** capacity

- Welded steel construction with zinc-plated finish for maximum corrosion resistance
- A range of wheel options – pneumatic or solid rubber

Special Purpose Hand-trucks are constructed from steel and are very strong and robust. They come in an attractive zinc-plated finish for maximum corrosion resistance.

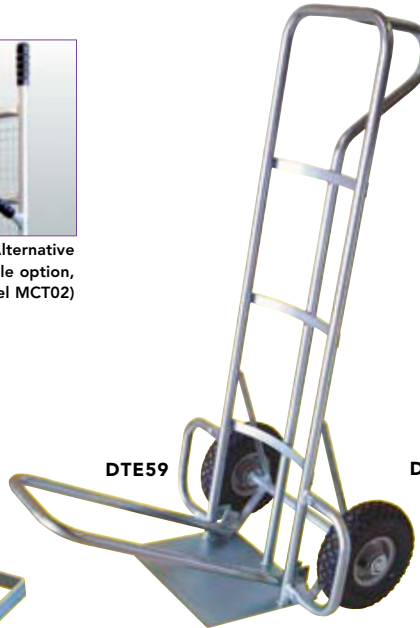

BHT

MCT01

Alternative handle option, (model MCT02)

DTE59

DKHT

Bread Crates

Designed for transporting and delivering bread crates. Standard wheels are steel centred, 410/350 pneumatic tyred.

BHT	BREAD CRATES
HEIGHT:	1630mm
CAPACITY:	200kg
LIP SIZE:	340mm x 340mm

Milk Crates

2 HANDLE OPTIONS AVAILABLE
For transporting and delivering crates of milk. Standard wheels are plastic centred, 300/4 pneumatic tyred.

MCT	MILK CRATES
HEIGHT:	1500mm
CAPACITY:	200kg
LIP SIZE:	380mm x 310mm

Drop-toe

Ideal for bulkier items. Extension folds up to allow regular use. Standard wheels are steel centred, 300/4 pneumatic tyred.

DTE59	DROP-TOE
HEIGHT:	1270mm
CAPACITY:	150kg
LIP SIZE:	200mm x 350mm
DROP-TOE:	270mm x 600mm

Double Keg

For handling two 50L kegs. Sliding hook engages the top rim of the keg. Standard wheels are steel centred, 410/350 pneumatic tyred.

DKHT	DOUBLE KEG
HEIGHT:	1320mm
CAPACITY:	200kg
LIP SIZE:	170mm x 340mm

LCT100

Light Weight Collapsible Hand-Trucks

High-quality light weight hand-truck built to withstand heavy loads. Features comfortable grip and easy storage with automatic folding function.

- Load capacity 100kg
- Can be unfolded or folded up in seconds
- Large 175mm puncture-proof non-mark wheels

LCT100	Collapsible Hand-Trucks
HEIGHT:	1080mm
CAPACITY:	100kg
LIP SIZE:	1040mm x 280mm

Up to **150kg** capacity

HAND-TRUCKS & TROLLEYS

'Waterboy' Sports Team Drinks Trolley

- Welded steel construction with zinc-plated finish for maximum corrosion resistance
- Hand-trucks which have been adapted to provide a specific function or task

Give your team the professional look of success with this very handy drinks trolley. The trolley is based on our popular GN40 Hand-truck. Provide the team with essential sustenance, while displaying sponsors' logo and messages.

20L fluid container with tap, strapped to upper tray.

Rear Carry Bag attached, ideal for First Aid kit, team valuables.

THE WATERBOY

- Practical - quick set-up. All team supplies on-hand at one station
- Mobile - easily manoeuvred when fully loaded
- Hygienic source of sustenance and First Aid. Easy to keep clean
- Successful - the look of a well-equipped winning team
- Sponsorship - pay for The Waterboy through sponsors, with ample space to display logos and messages

The Waterboy includes:

- 20L FLUID CONTAINER
- 10 SIPPER BOTTLES IN CARRY BASKET
- 2 HAND TOWELS
- 40L CHILLY BIN
- REAR CARRY BAG

'Bio-Cart' Biosecurity Risk Containment Trolley

An all-in-one, mobile unit, dedicated and on-hand for facilities receiving imported Sea Containers. Complies with the requirements of the MAF Biosecurity Authority Standard (2003).

BioCart

All tools required are conveniently stowed aboard:

- BROOM
- SHOVEL
- LEATHER GLOVES
- DUSTPAN & BRUSH
- TORCH / BATTERIES
- BIN LINERS
- INSECTICIDE
- 46L BIN WITH LID
- 10L PALE WITH SEALED LID

The Broom & Shovel stowed at the rear in easy reach when needed.

Items are conveniently stored in the upper plastic 'clip-seal' container.

10 litre plastic pale with sealed lid, stored inside the larger 46L Bin.
