**TTPT 2-Tier Produce Trolley**

Designed to carry cheap type plastic produce bins. The bins lock into the trolley to provide safe transportation. The top shelf is height adjustable or can be removed to allow an increased load on the lower platform. The rocking type wheel configuration allows greater manoeuvrability. Ideal for supermarkets, pack houses, produce outlets etc.

**LL2 Lo Loader**

A highly manoeuvrable flat-deck trolley with a removable handle. The strong welded steel construction has an attractive zinc-plated finish. Robust 125mm blue RX rubber-tyred castors - swivel front, fixed at rear. Ideal for bags, luggage, boxes etc.

**SH3 Stock Handler**

Handy double-ended welded steel trolley. Heavy-duty with zinc-plated protection. Rocking type wheel configuration – 200mm solid rubber tyred wheels on central axle with two 100mm rubber tyred castors front and rear. Smaller model also available (SH4)

**MTT5 Mesh Table Trolley**

Welded steel with zinc-plated finish. Designed for heavy-duty work, this versatile order picking trolley is ideal for use in all warehouses, mesh top basket and optional writing board. Rocking type wheel configuration make it very manoeuvrable

**Actual product may differ to that pictured.**
Warehouse Trolleys & Equipment

Modular Adjustable Kitset Shelf & Tray Trolleys

Modular Trolleys offer you a multitude of set-up configurations. Choose a standard rocking or non-rocking model or configure with your choice of shelves, trays or a combination of both. End-frames provide a variety of shelf/tray height options.

- Strong welded steel base frames
- 1400mm high to top shelf (cross bar)
- 8 cross-bars for shelf/tray adjustment
- 18mm Melteca® shelves or trays
- 250kg load capacity
- Easy to assemble with just eight bolts

**Non-rocking Models**

Wire Mesh Kitset Basket Trolleys

These versatile mesh trolleys are constructed in a modular kitset format. The choice of single, two or three tier configuration to suit your requirements.

- Strong welded steel mesh baskets are zinc-plated
- Powder coated tubular legs and handles
  - Baskets can be inverted
  - 100mm swivel castors with non-marking rubber tyres.
  - Supplied as kitsets for low freight cost and are very easy to assemble.
- Capacity 260kg per trolley

Basket Carts

TWO VERSATILE SIZES

Tubular steel, welded trolley frames have a handle at each end and are powder-coated. Removable, plastic-coated wire-mesh baskets hook over the frame. Very light and manouevrable with four rubber-tyred, swivel castors. Easy to keep clean making them suitable for applications where hygiene is important.

- BCT1: SIZE (mm): 740L x 440W x 940H
  - Baskets: 47L
  - CASTORS: 75mm rubber-tyred, swivel
  - CAPACITY: 160kg
- BCT2: SIZE (mm): 1070L x 595W x 945H
  - Baskets: 94L & 146L
  - CASTORS: 125mm rubber-tyred, swivel
  - CAPACITY: 160kg

Ideal for wholesalers, supermarkets, hotels, airports etc.

Liquor Trolley (nesting)

This strong welded steel trolley has a zinc-plated finish and includes a robust, tilting, thermo-plastic coated wire mesh basket. Four 125mm swivel castors.

- HLT: LIQUOR TROLLEY
  - SIZE (mm): 950L x 515W x 938H
  - CASTORS: 125mm rubber-tyred
  - CAPACITY: 250kg

Ideal for wholesalers, supermarkets, hotels, airports etc.

Nesting Shopping Trolleys

These high quality, mesh shopping trolleys are constructed from strong steel wire and have full zinc-plated protection. Ergonomically designed, they’re light and manouevrable. The back-end of the baskets tilt up to allow trolleys to be nested in groups.

IDEAL FOR USE IN: Supermarkets, superettes, fruit & vege shops, duty-free outlets etc.

- Two standard sizes – 100L and 70L
